
GUIDELINES FOR GROUP PROJECT

IML254: Introduction to Web Content Development

Title	: Corporate Website
Status	: Group Project
Number of web page	: 15 pages (minimum)
Language & style sheet	: XHTML & External CSS
Form of submission	: GitHub (Web Host)
Marks	: 40%

1.0 DESCRIPTION

You are required to create a corporate website in a group of four (4) students. The website can be developed using any WYSIWYG HTML Editor. Marks will be given for originality, contents, and design. You are entitled to use primary sources for the contents of the website. The content of your website will be derived from the analysis stages in your group report. To avoid confusion, please declare in disclaimer area that this website is not the official website of ...<company>... This website was developed for the purpose of learning XHTML & CSS only.

2.0 EVALUATION

This website will be evaluated on the following:

NO	CRITERIA	DESCRIPTION
1	Content	Including relevance and extensive information, links, disclaimer, images, language (English), etc.
2	Creativity	Layout, header, images, fonts, colors, whether or not the website can attract visitor's attention.
3	Coding	All coding must be functioning accordingly.
4	Publish	Successfully uploaded into web host (GitHub). Website is easy and quick to access.

Attention: Kindly refer to the criteria for the marking to identify the marks for each criteria's

3.0 REQUIRED ITEMS

The following items and XHTML and CSS syntax must be included into the website. Please use XHTML for basic structure and inserting content only. For **formatting**, please use CSS.

NO	ITEM	REMARK
1	Header image	Create a proper header with sufficient page title or information (use Adobe Photoshop/ Illustrator, Canva or any other software).
2	Content area	Includes text, header, images, links etc.

3	Navigation area	Consistent area containing links, announcement, etc. that appear on every pages.
4	Disclaimer area	Declares the truth information (as described in description), copyright, recommended browser & resolution, last update.
5	Various text formatting	Font, sizes, etc.
6	Images	Appropriate edited images (use any photo editor software) with reasonable size and quality, thumbnails.
7	Links	Internal, external, anchor, text, image. Add dynamic effects to the links.
8	Layout	Use CSS layout only.

4.0 CHECKLIST FOR WEBSITE PUBLISHING

- ❖ Make sure all files and folders are **properly arranged** and **named** (use small capital only).
- ❖ Apply **meta tags** (e.g.: keywords, description, author, etc.).
- ❖ Upload your website using GitHub only and make sure all elements i.e image, video, text appear without any problems.
- ❖ Make sure only **related files** (html & images) to your website are saved in the published folders (e.g.: images, flash, audio, video).

5.0 REQUIRED ITEMS ON GROUP.HTML

Please create one html file and name it **group.html** and link it to the corporate website. This file is only meant for identifying your group member personal details and will not affect your marking. The group.html must contain the following details:

- ❖ Title:
- ❖ Name:
- ❖ Student ID:
- ❖ Group:
- ❖ Course code:
- ❖ Course name:
- ❖ Faculty:
- ❖ Submission date:
